Dr. Joshua Lederberg
Professor of Genetics
Department of Genetics
Stanford University School of Medicine
Stanford, California 94305

Dear Dr. Lederberg:

I apologize for the delay (vacation and holidays intervened) in responding to your letter of December 22, asking for bibliographical information on regulation of pharmaceuticals. So far as I have been able to determine, there is no ready source of such a listing. I see that your people are going to do a MEDLARS search, and while my understanding is that MEDLARS is rather light on such things, I hope that it produces something of value.

In the meantime, we are assembling a bibliography, and while it is doubtless incomplete, I think that the materials listed will represent a reasonable sample of the more useful literature on the subject. We will get it off to you in a week or so.

If you have any difficulty running down any of the items listed, I would be glad to obtain them for you. I do thank you for asking for our assistance.

Sincerely,

W. C. Cray
